Response to Amendment

The reply filed on 9/30/02 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

(1) Not responsive to: Applicant's claim for domestic priority under 35 U.S.C. 119(e) is acknowledged. However, the provisional application upon which priority is claimed fails to provide adequate support under 35 U.S.C. 112 for claims 3,4,9,10, of this application. The referenced claims depend on the "zeta potential" of the filter. However, the provisional application number 60/176363 does not specify the zeta potential for the filters. Moreover, the figures 3-9 in the provisional application do not seem to agree with the figures 3-7 of the instant application. Figures 4-7 in the instant application and the corresponding disclosure in the specification seem to be new matter when compared to the figures in the provisional application.

(2) Rejection of claim 31 under 35 USC 112 para 2 is not completely overcome by the amendment. Claim 31 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The "...porous filters have a nominal diameter between ..." reads the diameter of the filter itself as 0.1 to 1.0 micron. The claim will be acceptable if corrected to read "... nominal pore diameter between..."

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
